The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 20 is rejected under 35 U.S.C. 102(e) as being anticipated by Cabral, Jr. et al (US 2004/0092073 A1).

Cabral, Jr. et al discloses a capacitor having a first electrode plate 33 and a second electrode plate 35 and a layer of dielectric 34 formed between the first electrode plate and the second electrode plate (Figure 29), wherein the second electrode plate could be formed from at least a layer made of ruthenium or ruthenium oxide and a layer made of polysilicon, with a barrier layer between the layer made of ruthenium or ruthenium oxide and the layer made of polysilicon, since Cabral, Jr. et al discloses that the second electrode could be a multilayer or mixtures thereof including ruthenium, ruthenium oxide, TaN, TaSiN, and polysilicon, and therefore, a second electrode plate formed of ruthenium or ruthenium oxide, a barrier layer made of TaN or TaSiN, and a polysilicon layer could have been achieved (Paragraph 0091 and 0095).

Claims 14-19, 22-29, and 32-34, are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
